“I have known Kevin for several years and have always admired his great personality, positive attitude and genuine passion for helping people. I first met Kevin at WMC Mortgage when he was a Manager in the WMC Training Department, and worked closely with him to take care of all his team's corporate travel needs. I have also been in a few of his training sessions and can attest to his people & training management skills and proven ability to educate & motivate others. Kevin has a wonderful sense of humour and this was always present in his training sessions. He was very popular with all of the trainees because he made learning about mortgages & lending fun and always ensured us that we could go to him anytime, if we were ever unsure about any of the training materials. This in my opinion is the true essence of a great manager: someone who “listens” and offers support where and when needed; someone who is passionate about their work and genuinely interested in helping people realise their goals and aspirations. If given the opportunity, I would not hesitate for one second to work with Kevin again.” August 8, 2008
